Review Summary

- The learning environment at ETS Excellence Training Solutions (ETS) is supportive, and most learners successfully gain knowledge and vocational skills and achieve their qualifications on time.
- ETS's strengths include learners' achievement, assessment of learning practices, and support provided to learners throughout their learning journey, which leads to the high quality of training. ETS still needs to improve on engaging the less active learners during training sessions.
- ETS's leadership and management team utilises a regular self-assessment process and other tools to maintain a focused strategic direction for improvement. The next step is to better utilise the outcomes in strategic and action planning.
- ETS is 'Good' in all Aspects when reviewed and will develop an action plan to further enhance its performance based on the review's recommendations.
