727

Overall effectiveness

Good

Aspect 1:

Assessment and Learners' Achievement

Aspect 2:

Learners Engagement and Support for Learning

Aspect 3:

Leadership and Management

Review Summary

- NGN Training Center learning environment is conducive and supportive, where most learners acquire relevant knowledge and develop vocational skills and achieve their qualifications on time.
- NGN's strengths include learners' assessment and achievement and the opportunities provided to learners to enhance theoretical learning with practical experience. The Center still needs to further improve the effectiveness of internal verification and moderation processes.
- The leadership and management team continuously monitors the Center's performance using an objective self-assessment process to maintain a focused strategic direction for improvement. The next step for improvement is to better utilise the outcomes of the self-assessment to enhance the quality assurance system.
- NGN is 'Good' in all Aspects when reviewed and will develop an action plan to enhance its performance further based on the review's recommendations.
