

BAS Aircraft Engineering Training Centre

07 - 09 October 2024

Location
Muharraq

Learning Areas
• Aviation

Total Enrolment
90

Overall effectiveness

Good

Aspect 1:
Assessment and Learners' Achievement

Aspect 2:
Learners Engagement and Support for Learning

Aspect 3:
Leadership and Management

Review Summary

- BAS Aircraft Engineering Training Centre (BAETC) provides effective training, supported by a dedicated leadership and management team focused on ambitious projects.
- The Centre's success comes from experienced trainers who offer valuable guidance and feedback to enhance learners' performance.
- Learners receive strong support in a positive environment, with access to well-equipped workshops and industry-standard tools for aircraft engineering.
- The majority of learners develop essential job skills, with nearly half passing their modules on the first attempt, and a minority passing on subsequent second and third attempts.
- BAETC is 'Good' in two Aspects, with 'Outstanding' in 'Leadership and Management', the Centre will develop an action plan to further enhance its performance based on the review recommendations.
