Review Summary

- The school provides a safe and engaging learning environment where students exhibit positive behaviour and actively participate in various events and programmes that foster their sense of enjoyment.
- The school excels in various areas, including students' strong academic performance, their development of leadership skills and teachers' utilisation of effective teaching practices.
- Flexible and effective action plans are implemented, and professional development programmes are provided to enhance the quality of teaching and learning.
- The school should prioritise improving the academic performance of Grade 6 students, particularly in Arabic and science, and enhancing its support programmes for the low achievers.
- This means that students will continue to receive personal and educational support that ensures their development and better learning.
- The school will draft an Action Plan based on the review recommendations.
