Questions 1 – 5

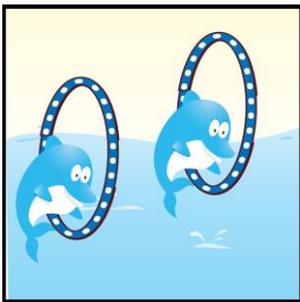

You will hear five short recordings.

For each recording there is a question and three pictures A, B, and C.

Choose the correct letter.

Pause 2"

Before we start here is an example.

0 Which activity will the dolphins do in the show?

Pause 5"

F: Hello, can you tell me what kinds of things the dolphins do in the show? Do they just swim around?

M: Well, actually you will see them dancing with each other. Last year we trained them to play with a ball – like a football game but people who were standing too close used to get wet.

F: Right, will the dolphins jump through hoops?

M: No madam, I'm afraid they won't.

Pause 2"

The dolphins will dance in the show, so there is a circle around the letter B.

Pause 2"

You now have one minute to look at Questions 1 – 5.

Pause 60"

Now we are ready to start. Listen carefully.

F: David, why don't we stay in my sister's countryside cottage? It is free.

M: It always rains there, it's horrible.

F: How about going to the city, you meet your friends there while I shop.

M: Mm, it's noisy there. The children will love a break by the river.

F: Yes, but we did that last year. I think they'll definitely prefer playing on the beach.

M: Lovely, let's go there then.

Question 2

What does Jane's mum want her to do?

Pause 5"

(beep)

*

F1: Can I ask you to do something for me Jane?

F2: Sure Mum. How can I help you? The laundry or the dishes? I know you won't ask me to vacuum the carpet again! You know I did that yesterday.

F1: You're such a sweet girl. What would I do without you! Actually I need you to iron some clothes and put them back in the wardrobe please.

F2: No problem, mum.

Question 3

Where is Sam going?

Pause 5"

(beep)

F: Morning Sam. Did you sleep well?

M: Morning Mum. Yes I did.

F: Good. This evening we're going to your uncle's house, it's your cousin Jack's birthday. And of course we have to go to the shop now to buy him a present.

M: Sorry Mum, I can't go with you. I have to study for the Maths test. And later on, I'll go with John to play football in the park, the one near the cinema.

Question 4

What time is David's appointment?

Pause 5"

(beep)

*

F: By the way David; your appointment with the dentist is tomorrow.

M: Tomorrow!!! I've forgotten all about it. Thanks for reminding me. It's at 3 isn't it?

F: No, that was last month's appointment. Tomorrow's appointment is at 4:30. Remember to be home early so that you can drive Sally to her friends at 4.

M: OK. I'll be home by 3:30 but she should be ready by then.

F: Don't worry she will.

Question 5

What was Rachel doing?

Pause 5"

(beep)

*

M: How did you find the book? Are you still reading it?

F: Oh sorry Dad, I haven't had time to read it. I was so busy searching for information from the internet for my geography project.

M: It's ok, you can keep it for another week.

F: Make it a month please, this is my busiest time of the year, I don't even have time to watch my favourite TV programme or go to the gym.

Good morning. My name's Captain Williams. Welcome on board the Ocean Wave, one of the largest cruise ships in the world. Whenever we spend a few days in one place, I invite local schools to come and look around my ship, so it's great to have you all here. During these stays, mechanics check the ship for any repairs needed. Also, the ship crew organise special dinners to relax and reduce their stress.

Good morning. My name's Captain Williams. Welcome on board the Ocean Wave, one of the largest cruise ships in the world. Whenever we spend a few days in one place, I invite local schools to come and look around my ship, so it's great to have you here.

During these stays, mechanics check the ship for any repairs needed. Also, the ship crew organise special dinners to relax and reduce their stress.

I know that none of you has been on a ship of this size before. So here's an idea of the facilities it has to offer. The ship provides its own entertainment. Think of the ship as a floating hotel with restaurants, cafes and much more! If we're going on a cruise that lasts one or two weeks or more, our passengers expect to be entertained. For kids we have our famous circus show every evening. Our cinema is the most popular of all. We also have our own musicians – singers, pianists and so on.

In addition to all this, we have a range of water and sports facilities. There's a fitness centre, gym, and indoor tennis courts on the level below this one. We even have a special jogging track marked out around the ship for people who like gentle running. On the top level, where we are standing, there are two pools, one for swimming and another for diving.

Now for some facts and figures. Imagine that with as many as 900 passengers on each cruise and 370 crew, whenever we are at a port, we buy a huge amount of food. Fresh fruit, vegetables, and water are taken on board. At each meal, we offer a choice of menus, and there are drinks and salads for people who like to help themselves. We have at least 10 freezers just for ice cream and pizzas!

During the cruise, we stop in some places and start loading goods, passengers are free to leave the ship and walk around. We organise bus trips for passengers at various ports we stop at, so people can make the best use of the few hours available. The crew stays on board for cleaning and tidying up. Many people like doing souvenir shopping in these countries, even though we have shops on the ship.

Right, enough introduction and back to our tour. We're going to end up at the part of the ship that matters the most, the engine room, where you'll see the best in modern technology. However, let's begin by taking the lift to the next level to see our best guest room with a shower, bath, sitting room, TV, and internet access. After that, we'll go to the ship's hospital room, so this way (fade)

Hello everyone, my name's John Brown. I'm from London and for the last ten years I've been working hard to save lives. That means you probably think that I'm a doctor. It's true that a journalist once called me a lifesaver. The fact is I use my knowledge as a chef to help families and schools.

Hello everyone, my name's John Brown. I'm from London and for the last ten years I've been working hard to save lives. That means you probably think that I'm a doctor. It's true that a journalist once called me a lifesaver. The fact is I use my knowledge as a chef to help families and schools.

Many things have changed since our grandfathers' generation. One of those things is people exercise less. It is generally known that fast food is available everywhere. It's delicious and there's no cooking and no washing the dishes. Also, we can all get most of our adventures and games from the screens of our modern TVs. But one must admit that we all live on our mobile phones, talking to anybody, anytime, anywhere without having to move.

Now, as you know, I'm here to save lives. Let's start with the fast food business which, through the big restaurants gives the world its popular diets. The vegetables that used to be found in people's back gardens are now grown in huge farms and prepared in factories. You can now find everything you need to eat packed in cans and kept on supermarket shelves for years.

This is something you need to teach yourself and your kids. Food companies spend a lot of time and money advertising their goods. Why should you read the food labels before you buy? Of course, if you don't want to pay too much money, you need to know the price. To keep your teeth healthy, you might also want to see how much sugar is in the product. However, if you really want to buy food that's good for you, you should read all the ingredients and not only the extra ones.

Cooking for yourself is a great way to avoid all that. In my opinion, there is no more delicious meal than one freshly cooked at home using the best ingredients and the right amount of salt. The jobs in the kitchen can be shared among family members. Depending on what you cook, or where you buy it from, it is usually less expensive than eating out. And all this helps you look healthier and feel more active too.

So, all of you, as school staff, have a very important job to do for your students' health. They have a long day. Providing a variety of activities is so important to use up their energy. Their break time is when you can help them the most by letting them rest. This gives them the chance to get back their strength and pay attention. Remember also, students love games – they can help keep their minds active and they don't get tired. Make sure too, that they have a healthy, sweet snack – like an apple, not candy of course.
