and Assessment

Leadership,
Management and
Governance

Review Summary

- The school's strong leadership team makes informed decisions and follows a clear management strategy to turn the school around and improve student learning.
- Students show respectful behaviour and benefit from structured personal development and well-being programmes that support their social and emotional growth.
- Teaching is engaging and well-structured, with effective use of resources and collaboration in most lessons.
- More focus is needed to improve Arabic language skills by setting higher expectations and using better instructional strategies.
- Better teaching practices should be consistently implemented across the school to challenge high-achieving students and provide targeted support where needed.
- The school has been rated 'Good' in this review and will draft an Action Plan to implement the recommendations provided.
