Management and
Governance

Review Summary

- The school is a safe and stimulating learning environment, where students receive appropriate education, as well as suitable personal care and support to students' special cases.
- The school supports students' personal development by offering extracurricular programmes and competitions that enhance their experiences and appropriately develop some of their talents.
- The school's leadership operates according to appropriate plans and procedures, and activates communication channels with local community and parents.
- The school needs to further its efforts to raise students' standards and support them academically, particularly in English and in the Intermediate stage in general.
- To further improve teachers' performance, the school should offer more effective teachers' development programmes and monitor their impact on teachers' performance, particularly in the Intermediate stage.
- All of this indicates that students will receive appropriate educational support and personal care that contribute to their growth and education. The school will develop an Action Plan based on the review recommendations.
