

## Sh. Abdulla Bin Isa Al-Khalifa Secondary Technical Boys School

10 - 12 March 2025

Location  
Isa Town

School Type  
Government

No. of Students  
1591

Grade Levels  
10 - 12

Overall effectiveness

**Inadequate with Satisfactory Features**

Students' Academic Achievement

Students' Personal Development and wellbeing

Teaching, Learning and Assessment

Leadership, Management and Governance

### Review Summary

- The school is one of the technical and vocational schools offering both vocational and commercial streams. The school provides students with a stable environment, where they participate in extracurricular activities and programmes, and receive appropriate personal care.
- The school leadership demonstrates adequate awareness of its context and focuses its procedures on raising students' awareness and enhancing their good behaviour. It also seeks to utilise resources to equip students with practical skills, particularly in electrical and mechanical lessons.
- To improve its performance, the school needs to focus on training teachers to improve students' academic standards and equip them with basic skills in general knowledge lessons and the theoretical specialised lessons, particularly in the commercial stream.
- Furthermore, the school needs to make more efforts to motivate students and enhance their drive towards learning.
- The school will draft an Action Plan based on the review recommendations, and will be scheduled for a monitoring visit.
