Intermediate Boys
School**

21 April 2025

Location
Samaheej

School Type
Government

No. of Students
640

Grade Levels
6 - 9

Overall Judgement

In Progress

- The school has made partial improvements in addressing most of the recommendations from the last review conducted in April 2024, while achieving 'Sufficient Improvements' in the recommendation related to providing opportunities for students to build their self-confidence and take leadership roles in lessons and extracurricular activities.
- The school updated its self-evaluation and utilised its results in developing clear school plans that focus on most of the schoolwork priorities, such as improving students' standards in core subjects and utilising assessments to meet students' educational needs. This contributed to improvements in some work aspects, such as enhancing teaching practices in the majority of mathematics lessons.
- The school needs to continue its efforts to develop students' academic standards, teachers' professional development programmes, and effectively monitoring teachers' performance to enhance the effectiveness of learning procedures, particularly in English and science.
- The school should continue to address the review recommendations to achieve the desired improvement. The school will be scheduled for a regular review for the next visit.
