- The school is an educational institution where students receive exceptional education and benefit from academic support programmes that enhance their academic standards in most core and specialised subjects, to prepare students for their next stage of education.
- The school leadership adopts a collaborative approach that focuses on sustaining excellence, providing intensive and quality professional development programmes for teachers, and disseminating best practices.
- Students demonstrate outstanding motivation for learning and exceptional personal and leadership skills. They participate in a wide range of different extracurricular activities, and exhibit self-discipline and are well-behaved while they are provided with distinguished care.
- Teachers present the majority of educational situations exceptionally well, and support students academically through a variety of programmes focusing on their different needs. This contributes to students' exceptional acquisition of basic and specialised skills.
- The school needs to benefit from the existing outstanding practices to improve some learning procedures in certain lessons through utilising learning time and challenging students' abilities more prominently, particularly in the commercial stream.
