and Assessment

Leadership,  
Management and  
Governance

## Review Summary

- The school provides good education to students, enhanced by academic support programmes that develop students' skills in both core and specialized subjects over time, preparing them for the next stage of their lives.
- The school's leadership demonstrates a clear commitment to development, implementing effective measures to monitor schoolwork, providing teachers' training, and closely tracking staff performance. This has contributed to enhancing the efficiency of teaching practices. Additionally, the leadership handles challenges with flexibility.
- The school has many positive features, such as its communication with parents, effectiveness of lessons in the Scientific Stream, and a variety of innovative extra-curricular activities and programmes that nurture students' talents, interests, and leadership qualities. Furthermore, there is a notable emphasis on promoting students' positive behaviour.
- The school needs to sustain its efforts to improve students' English standards, optimizing learning time, challenging students' abilities, and further focus on providing targeted support for low achieving students.
- The school was graded as 'Good' when reviewed and it will draft an Action Plan based on the review recommendations.
