Review Summary

- Training at the London Training Center (LTC) is delivered in a positive and supportive learning environment, where most learners acquire proficient knowledge and relevant employability skills. This enables almost all learners to successfully obtain their desired qualifications in a timely manner.
- LTC's strengths include the use of effective support and progress monitoring that enhance learners' overall experience, and the effective management and monitoring of staff and trainers' performance. Nonetheless, LTC should improve the consistency of internal moderation and the rigour of internal verification processes.
- The leadership and management team oversees the Centre's performance through established self-assessment processes. Moving forward, greater emphasis is needed on aligning self-assessment outcomes with strategic objectives to elevate the overall quality of provision.
- LTC has been rated as overall 'Good' with one 'Outstanding' Aspect during its review and will prepare an action plan to further enhance its performance in response to the review findings.
