Review Summary

- Success Training Center (STC) recruits staff and qualified trainers through a systematic mechanism leading to the provision of suitable training in which the majority of learners are actively engaged.
- STC supports learners in acquiring knowledge and skills adequately, enabling them to achieve the qualifications they aim for in a timely manner.
- The Centre provides purposeful opportunities to foster learners' lifelong learning, including opportunities for employment and promotion in the workplace.
- Although STC has many success areas, it needs to focus more on improving the quality of its provision, by raising the level of assessments, quality of training and the effectiveness of self-assessment and strategic planning.
- STC is 'Satisfactory' in all aspects and will develop an Action Plan to further enhance its performance based on the review recommendations.
