

## Alzallaq Primary Intermediate Boys School

6 - 8 October 2025

Location  
Al-Zallaq

School Type  
Government

No. of Students  
564

Grade Levels  
1 - 9

Overall effectiveness

**Inadequate with Satisfactory Features**

Students' Academic  
Achievement

Students' Personal  
Development and  
wellbeing

Teaching, Learning  
and Assessment

Leadership,  
Management and  
Governance

### Review Summary

- The school provides suitable programmes to support students' personal development and promote positive behaviour. It also maintains appropriate communication channels with parents and stakeholders.
- Students demonstrate Islamic and national values, show mutual harmony, and participate enthusiastically in extracurricular activities that foster their talents.
- The school needs to raise students' academic standards and ensure their progress in most core subjects across all cycles, by implementing academic support programmes that cater to their different educational needs.
- The school needs to enhance its administrative and educational practices by intensifying the professional development programmes offered to teachers, monitoring their performance in lessons, focusing on improving teaching methods, utilising learning time, and implementing effective assessments that support students across the different learning groups.
- The school will prepare an Action Plan based on the review recommendations, and a monitoring visit will be scheduled accordingly.
