1356

Overall effectiveness

Good

Aspect 1:
Assessment and Learners' Achievement

Aspect 2:
Learners Engagement and Support for Learning

Aspect 3:
Leadership and Management

Review Summary

- Talal Abu-Ghazaleh Training Group (TAG) provides effective training within a supportive learning environment. This success is directly driven by a leadership team committed to continuous improvement.
- TAG's trainers have strong subject knowledge and utilise purposeful strategies that actively engage most learners. The training is supported by a well-structured assessment process that ensures consistent monitoring of learners' achievement. This facilitates the provision of targeted academic support, enabling most learners to acquire the vocational knowledge and skills necessary for successfully achieving their qualifications.
- Key development opportunities include enhancing training methodologies to better engage less active learners and encourage more dynamic participation. Enhancing internal assessment verification and moderation processes in line with updated quality assurance policies will help ensure consistency. Additionally, refining self-assessment tools will support more critical and accurate identification of development areas, thereby informing strategic action planning.
- TAG has achieved a 'Good' rating across all aspects and will develop an Action Plan to address the review recommendations and ensure sustained improvement.
