

ThinkSmart for Development and Training

08 – 10 December 2025

Location
Manama

Learning Areas
Information and Communications
Technology

Total Enrolment
2377

Overall effectiveness
Outstanding

Aspect 1:
Assessment and Learners'
Achievement

Aspect 2:
Learners Engagement and
Support for Learning

Aspect 3:
Leadership and
Management

Review Summary

- ThinkSmart for Development and Training (ThinkSmart) offers high-quality Information and Communications Technology (ICT) externally accredited programmes from reputable awarding bodies, with most enrolments in Microsoft certified programmes.
- The Institute employs scenario-based summative assessments that are rigorously verified and moderated to help learners acquire advanced ICT skills and enable them to pass awarding bodies examinations and obtain certification on the first attempt.
- ThinkSmart utilises relevant admission tools and analyses them carefully to place learners at the appropriate programme levels. It also provides purposeful opportunities to support and promote lifelong learning.
- The Institute meticulously assesses its performance and closely monitors the performance of learners and trainers to promote growth, raise learners' achievement standards and enhance the quality of provision.
- While the Institute demonstrates strengths across all aspects of provision, it can further challenge the abilities of a few learners to improve their acquisition of theoretical knowledge and strengthen the governance of the self-assessment process to sustain outstanding performance.
- ThinkSmart is 'Outstanding' in all aspects and will develop an Action Plan to maintain its performance based on the review recommendations.
