1 - 5

Overall effectiveness

**Satisfactory with Good Features**

Students' Academic  
Achievement

Students' Personal  
Development and  
wellbeing

Teaching, Learning  
and Assessment

Leadership,  
Management and  
Governance

### Review Summary

- The school provides an appropriate learning environment, where students are well-behaved and evidently adhere to school regulations, with active and confident participation in diverse extra-curricular activities. The school provides students with effective personal development programmes, especially for supporting students with special needs.
- School's leadership maintains effective communication channels with parents, consistently seeks to engage them in school events and activities, and benefits from professional learning communities and local community institutions to enhance students' talents and diverse experiences.
- To further advance its performance, the school should focus on developing its administrative processes related to self-evaluation and planning, and concentrate efforts on supporting all student groups, particularly low achieving ones through enhanced remedial programmes.
- The school should focus on improving teaching quality by developing teacher performance through tailored training programmes aligned with their actual professional needs, ensuring the overall improvement of the school's performance.
- All of this indicates that students are learning in an appropriate school environment and receive effective personal care. The school will develop an Action Plan based on the review recommendations.
