### Review Summary

- Students demonstrate appropriate behaviour and embody Islamic and national values. The school nurtures their talents and interests while providing the care needed to support their personal development.
- The school enhances its efforts in organising school operations, distributing responsibilities, and activating support committees, which has contributed to improving overall school performance. Effective communication with parents and collaboration with community institutions have also enriched teachers' professional exchange and broadened students' experiences.
- The school needs to develop its various plans, ensuring continuity in their quality implementation and regular follow-up.
- The school should strengthen academic support for students in lessons and school programmes more consistently and effectively, to help improve their academic levels and equip them with basic skills, particularly in English.
- The school should continue delivering professional development programmes for teachers, with follow-up on their impact, especially in optimising learning time, using effective assessment, and using its outcomes to meet students' educational needs and challenge their abilities.
- The school was judged as 'Satisfactory' during its review and will develop an Action Plan based on the recommendations provided.
