Governance

Review Summary

- Hitteen Primary Boys School is a stimulating learning environment where students' leadership skills and initiatives are reflected through their active participation in school events and programmes that enhance their creative and innovative abilities, while providing exceptional personal care for students with special needs.
- The schools' leadership possesses strong awareness of the school's context and operates through a flexible, collaborative system capable of addressing challenges while encouraging creativity among staff. Parents and local community institutions contribute significantly to enriching school life, enhancing students' diverse experiences and interests.
- Teachers employ various strategies and effective learning resources in the majority of lessons, particularly in the Class Teaching, contributing to students achieving good academic standards.
- The school needs to focus more intensively on developing core skills for low achievers, particularly in Arabic and mathematics, and support them by enhancing the academic support programmes provided.
- The school should elevate teaching and learning processes, particularly regarding better utilisation of learning time and challenging students' abilities through assessment activities in some lessons.
- This indicates that students will receive positive educational opportunities that contributes to their growth and progress, and it will develop an Action Plan based on the review recommendations.
