Government

No. of Students
707

Grade Levels
1 - 5

Overall effectiveness

Satisfactory with Good Features

Students' Academic Achievement

Students' Personal Development and wellbeing

Teaching, Learning and Assessment

Leadership, Management and Governance

Review Summary

- The school provides an appropriate learning environment, where students are well-behaved and clearly comply with school regulations, supported by a range of effective personal well-being programmes for students, especially ones with special educational needs.
- Students actively participate in school activities that develop their personal attributes. Moreover, the school maintains positive communication with parents and maintains positive cooperation with partners to enhance students' experiences and support their learning.
- The school's leadership demonstrates a positive ability to address challenges and manage schoolwork in an organised manner, which has led to improvements in some areas of school operations.
- The school needs to improve its performance by exerting further efforts to raise students' academic standards and equip them with basic skills in lessons and support programmes.
- The school should more closely monitor the impact of professional development programmes on teachers' performance in lessons to improve the effectiveness of learning procedures implemented in the classrooms.
- All of the above indicates that students receive appropriate educational provision and effective personal well-being. The school will develop an Action Plan based on the review recommendations.
