10 – 12 November 2025

Location
East Riffa

School Type
Government

No. of Students
763

Grade Levels
6 - 9

Overall effectiveness

Inadequate

Students' Academic
Achievement

Students' Personal
Development and
wellbeing

Teaching, Learning
and Assessment

Leadership,
Management and
Governance

Review Summary

- The school provides an emotionally secure environment for students. The students' personal care and wellbeing programmes offered by the school have contributed to their adherence to school regulations, proper behaviour, adherence to Islamic values, and principles of citizenship.
- The school develops the interests and talents of the majority of students by offering diverse extra-curricular activities, and utilising its community partnerships to enhance such interests.
- The school needs to accurately evaluate its performance and use its results to improve its overall performance, by focusing on enhancing student skills, increasing the effectiveness of teaching and learning processes, and developing students' self-confidence and their assumption of leadership roles, especially during lessons.
- The school should provide purposeful academic support programmes aimed at improving students' academic standards, in addition to developing teachers' performance by focusing on implementing teaching methods that engage students, managing lesson time in an organised and purposeful manner, and implementing assessment methods that address curriculum competencies.
- The school is "Inadequate" when reviewed. It will develop an Action Plan based on the review recommendations and will be scheduled for a monitoring visit.
