1 - 3 December 2025

Location
Al-Ma'meer

School Type
Government

No. of Students
843

Grade Levels
6 - 9

Overall effectiveness

Inadequate with Satisfactory Features

Students' Academic
Achievement

Students' Personal
Development and
wellbeing

Teaching, Learning
and Assessment

Leadership,
Management and
Governance

Review Summary

- The school maintains continuous communication with parents and relevant stakeholders, focusing on certain aspects of school operations and adequately addressing some challenges; this has contributed to the improvement of students' personal development and their proper wellbeing.
- Students are well-behaved, interact harmoniously, adhere to school rules and regulations, and participate appropriately in school life.
- The school needs to exert further efforts to raise students' academic standards and acquire basic skills in lessons and school programmes, particularly in English and Mathematics.
- The school needs to improve teaching practices by providing more effective professional development programmes for teachers, while monitoring their impact on teacher performance in lessons. This involves focusing on employing appropriate teaching strategies, investing learning time effectively, implementing effective assessment activities, and using their results to support various categories of students in lessons and written work.
- The school will develop an Action Plan based on the review recommendations and will be scheduled for a monitoring visit.
