1 December 2025

Location  
Al-Busaiteen

School Type  
Government

No. of Students  
405

Grade Levels  
7 - 9

### Overall Judgement

## In Progress

- The school has achieved partial progress in its overall performance. Through reorganising its administrative processes, it has succeeded in bringing about noticeable improvement in some of the previous review recommendations, particularly those related to adopting robust school assessments and examinations and ensuring accuracy in marking.
- The school has focused its plans on developing students' basic skills by providing academic support in lessons and school programmes, in addition to enhancing teachers' professional performance through tailored training programmes that address their actual needs. This has contributed to a partial improvement in students' achievement standards, as well as in the effectiveness of teaching and learning delivered in most lessons.
- The school should continue to provide students with academic support in lessons and school programmes to raise their students' academic achievement, especially in science and English.
- The school should continue to improve its administrative processes to address recommendations, particularly those related to developing teacher performance, to ensure greater improvement in teaching and learning, leading to the desired progress. The school will be scheduled for a regular review on the next review visit.
