- Information and Communication Technology
- Business and Commerce
- Insurance
- Retail

Total Enrolment
877

Overall effectiveness

Good

Aspect 1:

Assessment and Learners' Achievement

Aspect 2:

Learners Engagement and Support for Learning

Aspect 3:

Leadership and Management

Review Summary

- Training Plus Institute (TPI) offers good-quality training with qualified trainers who use effective training strategies for the majority of learners and create an engaging learning environment.
- Assessments are clear and well-organised, matching the Intended Learning Outcomes (ILOs). This helps most learners to get their qualification on time and enables a significant minority of them to acquire good skills and knowledge.
- Learners get good support and take an active part in learning at TPI, which helps them stay involved and build useful skills.
- The management team makes sure that training programmes match market needs by planning carefully and taking actions. This keeps programmes useful and in line with industry requirements.
- The Institute needs to further improve learners' mastery of skills and knowledge, continue enhancing the verification of internal assessments, utilise self-assessment outcomes more effectively and enhance the follow-up of learners' performance.
- TPI is 'Good' in all Review Aspects and will develop an Action Plan to further enhance its performance based on the review's recommendations.
