

Alahd Alzaher Secondary Girls School

20 - 22 October 2025

Location
Hamad Town

School Type
Government

No. of Students
977

Grade Levels
10 - 12

Overall effectiveness

Satisfactory with Good Features

Students' Academic
Achievement

Students' Personal
Development and
wellbeing

Teaching, Learning
and Assessment

Leadership,
Management and
Governance

Review Summary

- The school provides a supportive learning environment where students benefit from effective personal support and wellbeing, demonstrate positive behaviour, actively participate in various extracurricular programmes and activities that enrich their experiences and cater to their diverse interests.
- The school's leadership shows clear commitment to development and systematically facilitates operations through the implementation of well-structured plans to achieve their objectives. Leaders respond flexibly to challenges and maintain positive communication with parents.
- A greater focus is needed on developing academic support programmes and improving students' skills, particularly in language and mathematics.
- The school needs to improve the quality of teaching and learning by monitoring the impact of training and workshops on classroom practices, particularly in managing learning time effectively, using assessment outcomes to challenge students' abilities, and providing targeted support to different students' groups.
- This means that students will receive appropriate educational support and effective personal care and wellbeing to ensure their growth and learning. The school will develop an Action Plan based on the review recommendations.
