

Procloud Training Centre

1 - 3 December 2025

Location
Alsuwayfayah

Learning Areas

- Information and Communications Technology
- Business and Commerce

Total Enrolment
689

Overall effectiveness

Good

Aspect 1:
Assessment and Learners'
Achievement

Aspect 2:
Learners Engagement and
Support for Learning

Aspect 3:
Leadership and
Management

Review Summary

- Procloud Training Centre (PTC) offers a supportive and well-equipped learning environment where most learners achieve their qualifications and meet the programme intended learning outcomes.
- PTC's strengths include well-structured assessment practices, experienced trainers who employ effective training strategies and support throughout the learning journey. These factors contribute to the overall quality of its provision. However, improvements are needed to raise success rates in a few Information Technology programmes, enhance engagement for learners at different ability levels, and further improve the existing policies and procedures, with particular emphasis on the assessment verification and moderation.
- The leadership and management team demonstrates a clear vision and commitment to continuous improvement. The next step is to refine strategic and operational planning and to better utilise self-assessment outcomes to drive targeted improvements.
- PTC is rated 'Good' in all Aspects and will develop an Action Plan to address the review's recommendations and further strengthen its quality assurance and training practices.
