

Madar Training Centre

3 - 5 November 2025

Location
Sitra

Learning Areas
Engineering and Architecture

Total Enrolment
344

Overall effectiveness
Satisfactory

Aspect 1:
Assessment and Learners'
Achievement

Aspect 2:
Learners Engagement and
Support for Learning

Aspect 3:
Leadership and
Management

Review Summary

- Madar Training Centre (MTC) employs qualified trainers who usefully integrate theoretical knowledge with practical expertise during their delivery.
- The newly formed management team provides clear strategic direction and is actively working to enlarge the Centre's offerings.
- To further improve provision, MTC should enhance learners' achievement rates to raise overall licence attainment and expand skills development.
- The Centre needs to formalise verification and moderation processes to elevate assessment complexity and better challenge learners' abilities.
- Learners' guidance and advice should be systemised at the beginning, throughout, and after the learning journey to ensure consistent support.
- Overall analyses of learners' performance and training quality should be systemised and regulated to better inform management decisions and strategic planning.
- MTC is rated 'Satisfactory' overall and will develop an Action Plan to enhance its performance in line with review recommendations.
