Business and Commerce

Total Enrolment
289

Overall effectiveness
Satisfactory

Aspect 1:
Assessment and Learners'
Achievement

Aspect 2:
Learners Engagement and
Support for Learning

Aspect 3:
Leadership and
Management

Review Summary

- Entrepreneurship Training Center (ETC) offers a range of short and very short programmes in the field of Business and Commerce under the “Entrepreneurship” programme, which is designed for those interested in starting small and medium enterprises.
- ETC supports learners to acquire appropriate knowledge and skills; enabling them to achieve the certificates they aim for in a timely manner.
- Trainers demonstrate obvious depth of knowledge and draw on their experiences to foster a positive learning environment, that is easily accessible to all learners.
- The Centre should implement more rigorous verification and moderation processes for all summative assessments, to enhance their level of complexity, ensure the availability of grading rubrics and provide constructive feedback.
- The Centre can utilise the admission arrangement outcomes more efficiently to group learners in homogeneous groups and provide purposeful support to meet their varying individual needs.
- ETC needs to implement a rigorous self-evaluation process and utilise its outcomes to enhance the Centre’s provision and ensure business continuity and growth.
- The Centre is rated ‘Satisfactory’ in all review Aspects and will develop an Action Plan to improve its performance based on the review recommendations.
