Governance

Review Summary

- The school provides an appropriate learning environment, where students receive an appropriate education, in addition to demonstrating clear commitment to its students' personal care and wellbeing.
- Students are well-behaved and self-disciplined, adopt Islamic and national values, and interact harmoniously. Moreover, they confidently and enthusiastically participate in school life by assuming various leadership roles.
- The school's leadership adopts an improvement-oriented approach, and implements clear measures to address certain challenges, particularly those related to supporting students whose mother tongue is not Arabic, while effectively maintaining communication channels with parents and partners.
- The school needs to enhance students' skills in core subjects by implementing more effective academic support programmes tailored to meet their diverse educational needs.
- The school needs to focus its efforts and training programmes to a greater extent on improving teaching practices in lessons through emphasising optimal use of learning time, employing more effective assessment methods that challenge students' abilities, and utilising assessment results to address teaching needs.
- The school is rated 'Satisfactory' when reviewed and it will develop an Action Plan based on the review recommendations.
