Management and
Governance

Review Summary

- Ahlia school is led by an effective leadership team with a clear strategic vision and a strong focus on supporting students' learning and overall development.
- Students participate actively and enthusiastically in a wide range of extracurricular activities, events, and competitions, which enrich their learning experiences and contribute positively to their personal, social, and leadership development.
- The school provides effective academic support beyond lessons, underpinned by well-maintained resources and facilities that promote a positive learning environment and extend learning opportunities.
- Teaching and learning need to be further strengthened by ensuring greater consistency in classroom practices, appropriate levels of challenge for the more able students, targeted support for the less able ones, and more effective use of learning time to improve students' progress.
- The school is judged 'Good with Outstanding Features' when reviewed and will develop an Action Plan to address the review recommendation.
